## PROJECTS

### **Julia Cooks** — *IoT, AWS Lambda/DynamoDb, Node.js*

Created an Alexa skill, using AWS DynamoDB, Lambda (Serverless) for near infinite scalability while utilizing managed solutions. Julia maintains a food inventory for each user and will deliver several suggested recipes from an 3rd party API and a step through cooking the meal. Julia also has a companion website to store a history of recipes and help manage inventory through a second interface.

## EXPERIENCE

### **Valley Restaurant, Garrison, NY** — *Lead Cook*

April 2018 - February 2020

### **Jones Farm, Cornwall, NY** — *Head Chef*

April 2016 - April 2018

### **The Hop, Beacon, NY** — *Sous Chef*

November 2014 - March 2016

## EDUCATION

### **Full Stack Academy, NYC, NY** — *Software Engineering Immersive* – February 2020 - May 2020

Studied Fullstack JS development and programming skills such as paired programming, project methodology and solution design.

### **Culinary Institute Of America, Hyde Park, NY** — *Associates*
